To Whom It May Concern:

I am writing this letter of recommendation on behalf of TRC Construction Services, who has been an invaluable asset to our construction projects continuously since 2018 where they have completed 10 tilt-up concrete warehouse buildings totaling 700,000 SF and 20 tenant build-outs at our Class A industrial park, Airport Logistics Park. I have had the privilege of working closely with Brian Davis and his team on numerous projects, and I can confidently attest to their exceptional skills, dedication, and professionalism.

TRC has consistently demonstrated a deep understanding of the construction industry, from project planning and management to on-site execution. Their knowledge of various construction techniques, materials, and safety protocols has resulted in them consistently delivering high-quality work that meets our expectations.

One of TRC's standout qualities is their ability to keep projects on track even in challenging circumstances. TRC has been a great partner to help insure our buildings were consistently delivered on time and within budget.

In addition to their technical expertise, The TRC team are effective communicators and collaborators. They have a talent for adjusting and finding creative solutions to unexpected circumstances that occur during a construction project. Their ability to address and resolve issues in a timely and professional manner has been crucial in maintaining a harmonious work environment.

In conclusion, I wholeheartedly recommend TRC without reservation. I am confident that they will excel in any construction project they undertake. Brian Davis and his team are true professionals who have proven themselves to be an asset to our company.

Sincerely,

Allen Arender
